Visually Impaired Education and Work Support

Be mobile to get to know the World

What is Views?

- A network of European countries and world wide partners
- A network of people who are blind or visually impaired themselves and those who are dedicating their energy to foster the social inclusion and the positive self development of this target group

What do we aim?

- Enlarge the mobility of people with a visual impairment via Youth Exchanges, European voluntary service (EVS), or via information about adapted facilities and assistive devices.
- Encouraging young people to take steps towards their social and professional integration via participating at our projects or in giving them the possibility to develop their own projects.
- Raising awareness within society for the needs and capacities of visually impaired people.

Are you an association, NGO, foundation, who works with and/or visually impaired people, or interested to work with, then IEWS International is your network. Become a full member.

Are you a person, young or not, but would like to be involved in the projects of IEWS International, or would simply like to know about its actions, then you are welcome as subscribing member.
